

Mayor Again Chooses His Bureaucracy over the Tax Payers

November 20, 2008

Steve Lind

The [2009 budget](#) that the Mayor had included in the packet for Monday's November 24, 2008 meeting is most interesting. When compared with the same [Ordinance for the 2008 budget](#) it shows an absolute increase. During a time when it seems that every other government entirety is having to make cuts this Mayor is making increases. How is this possible? Apparently he thinks the citizens can continue to fund his increases as he continues to refuse to cut any of the budget. What will it take to stop this Mayor? It does not look like his three blind mice (Allison, Rath and Pierce) will as they have been involved in the development of the budget and one has no reason to believe that they will do other than rubber stamp it as this have been doing with most everything else he presents of substance.

Maybe the Citizens will finally get feed up and bring the pressure to stop this! It's long past due! Will you come to the meeting and tell all that this has to stop?
