Edited so that writer remains anonymous.

Hello. I am at Eatonville High School. I am actively involved in school, as well as sports. With the rebuilding of the high school and all that entails, I try to stay as involved as possible on town matters.

So, I would like to start by saying that I enjoy your website.

On a less formal note, I would like to say that I really got a kick out of the Public Utilities meeting on the 12th. Bruce completely lost it. If the time ever presents itself, I would like you to pass a message on

to Mr. Rath from the high school, (this recording is even on some iPods already): We were not impressed with your attempts of ridding the town of the EYSA program. We realize what an inconvenience it must have been for you to look down on those ugly blue storage bins, but what is really important in this community?

Mr. Wrath having a nice(er) view from his palace, or an organized athletic program for youth of the town? Also, the thousands of dollars that are unaccounted for continue to boggle our minds. And, finally, your uneducated outrage at the meeting the other night made people think even less of you. Learn the law before you voice your opinion and

try to use proper language. I don't believe the words you expressed are of those that you would wish the youth, and future of Eatonville to

hear. That is all.

I will remain anonymous from Eatonville High School. I applaud your efforts for all that you have done. Thank you.
